

PRETTIEST TOWNS IN THE USA

This bohemian ex-mining town is nestled in the foothills of southern Arizona, just north of the Mexican border. Urban designer Danno Glanz says its colorful characters and western charm, along with "eclectic hillside residential neighborhoods that terrace down the hillside in an organic way" are among the attributes that place it on his list. "From the top of the hills, you get dramatic views into Mexico's rugged Sonora State," he adds. "It's a great town for walking."
